

# Operating the Bridge 2010

The bridge tenders are responsible for recording every opening of the bridge.

A view from the bridge deck on the inside.

A view from the bridge control center while the bridge is being opened.

Tender Richard "Twig" Barrett operates the bridge.

A look at the bridge as it starts to swing away from the road.

This indicators shows the bridge tender when the bridge is unlocked and when it is safe to swing the bridge open so that the weight is evenly distributed.

View from the road of the bridge opening.
